Introduction

Horse racing can be a hard game to beat. But, with some simple rules we can find ourselves in profit. The difficulty is in finding the rules that work!

Why spend the time doing that when I have done it for you. What you will find in the following pages is a system that generates a good profit and takes only a few minutes each day to find the selections for.

All the best,

Kempton Secrets Rules

I am sure that you want to find out how to find the selections and so I will get straight into the system.

My belief is that you will be a far better bettor if you understand the reasons why something works and so after the rules I have included examples of how to find the selections and then followed this with an explanation of why this system works.

But right now, here are the rules.

Race Selection

- 1) We only focus on All Weather races being run at Kempton.
- 2) The distance must be between 6 furlongs and 1 mile 3 furlongs.

Horse Selection

- 1) The horse MUST be running on an all weather track for the trainer for the first time
- 2) The Betfair SP must be 10 or less.

All selections are backed to Betfair SP. This selection process has produced a strike rate of 50% and a return on investment of 32%.

Race Examples

Some days there will be a number of races that qualify for analysis and on other just one. Below are some race examples showing how to find the selections for this system.

21:20	32 Free At 32Red.com Fillies' Handicap (3yo+, Class 4, 7f, 8 runners)		

Scroll down until you find the Kempton Park race card. If there is not one that day then there are no races at Kempton and we will not be betting.

When you do find a Kempton Park race card, then we want to make sure it is an All Weather meeting which we can do quickly by checking the Going.

The Going for All Weather racing can only be Slow, Standard or Fast. If it is not one of these then it is NOT an All Weather meeting and we don't bet. As you can see above, the Going is Standard. This confirms that it is an All Weather meeting and we can continue with our analysis.

We are now looking for races that are between 6 furlongs and 1 mile 3 furlongs.

This can be seen in the details after each race on the Kempton Park race card.

Kempton Park		RACINGUK	
Going: Standard	Surface: Polytrack	Meeting home	Fast cards

21:20	32 Free At 32Red.com Fillies' Handicap (3yo+, Class 4, <u>7f, 8 runners</u>)		

As you can see above, all the races except for the 20:20 fit the criteria of being between 6 furlongs and 1 mile 3 furlongs. The 20:20 is being raced over 1 mile 4 furlongs and so is removed from our analysis.

Click on the first race in the list and you will get the race card listing all the runners for the race.

The screenshot shows the Sporting Life website interface. The main content area displays the race card for the 18:20 Kempton Park race. The race is titled "32RedBingo.com Nursery" and is a 1-mile race. The race card lists six runners with their respective trainers, jockeys, and odds. A red arrow points to the trainer "B J Meehan" for the first runner, "Run It Twice (IRE)".

6	08654 (12)	Getaway Car 23	2	9-6 p	G A Butler	N Callan	59		8/1

We now go through each trainer one-by-one to see if their runner is on the All Weather surface with them for the first time.

To do this, make a note of the trainers name, the trainer for Run It Twice is called B J Meehan, and then click on the horses name.

This will bring up all the details for the horse, as you can see above. We are interested in just two things. The Trainer, which is the trainers name, and the previous race details, specifically the going.

By using the going we can see if the horse has run on the All Weather before for this trainer.

If you remember, there are only three types of possible going for All Weather racing. Slow, Standard and Fast. On the horse's page, these will be shortened to...

- Slow = Slow
- Standard = Std
- Fast = Fst

We look to see if this horse has any races with today's trainer that was run over one of these three goings. If it was, then the horse is not a selection, if it isn't we continue looking to make sure there are no other races where it may have run over one of these three goings.

If it has never run over one of these three goings for the trainer before, then it becomes a possible selection.

Run It Twice has never run over one of our three goings for today's trainer BJ Meehan, so it becomes a possible selection.

We repeat this process for each of the horses in the race.

Ana Shababiya has raced over std going before for I Mohammed and so does not become a selection.

Having gone through all the horses in the race we are left with four potential selections.

Run It Twice
 Kryena's Rose

Rosie Future
Karr Wa Farr

Now we need to place our bets. Don't forget that the selection must have odds of 10 (9/1) or less to be bet on.

The closer you can place your bets to race time the better.

Staking

The staking for this system is very simple.

You should place 2.5% of your bankroll each-way on each bet. This makes for a total of 5% of your bankroll on each bet. To place an each-way bet on Betfair please place 2.5% of your bankroll in the Win market and 2.5% of your bankroll in the Place market.
